Barcelona (Spain)

EXPERIENCE

2024-Present Technical Lead - FICOSA Automotive (Spain)

- Led AI development for European and national collaborative projects:
 - Designed multimodal perception pipelines (cameras, LiDAR, odometry)
 - Coordinated the implementation of deep learning perception models
 - Oversaw dataset development and annotation
- Collaborated with cross-functional engineering teams and international partners

2019-2024

Deep learning and computer vision researcher (PhD) - Univ. Lyon 2 / LIRIS (France)

Human pose estimation using deep learning: application to passengers in autonomous vehicles

- Designed deep learning architectures for driver pose estimation
 - Implemented end-to-end training and evaluation pipelines for deep learning models
 - Built large-scale annotated datasets
 - Improved model robustness and generalization
- Published four papers in international conferences

2020-2023

University Teacher - Univ. Lyon 2 / LIRIS (France)

- Taught programming (Python, C++), linear algebra

2019

R&D Vision Engineer Intern - Siléane (France, 6 months)

- Developed a C++ vision system for 3D capture of tool manipulation and reproduction with a robot

2017

Validation Engineer Intern - Schneider Electric (France, 5 months)

- Developed a Python-based automated firmware validation platform for PLC testing.

EDUCATION

2018

Exchange semester in Master of Electrical

Engineering, KAIST (Korean Advanced Institute of Science and Technology), South Korea – Information Theory, Computer Vision, Machine Learning

2019

Master of Engineering (Electrical department), INSA Lyon, France – Electronic and Sensors, IT, Machine Learning, Automation, Telecoms

SUMMARY

Machine Learning Engineer with a PhD in Computer Vision and 6+ years of experience developing multimodal AI systems for the automotive industry, combining research expertise with hands-on engineering.

SKILLS

Computer Vision

- Camera Calibration
- Image Processing
- Sensor Fusion

ML

- Deep Learning
- Pose Estimation
- Dataset Engineering

Programming

- Python, C++, MATLAB

Frameworks & Tools

- PyTorch, OpenCV, CUDA,
- ONNX, FastAPI, CMake
- Docker, Git, Linux

LANGUAGES

- English: fluent (C1)
- Spanish: upper intermediate (B2)
- French: native
- German: intermediate (B1)
